CONCORDIA LIBRARY RECEIVES GRANT

Dr. Martin Cohen, the Library's Collections Coordinator, was informed recently that the Social Sciences and Humanities Research Council has approved our \$11,500 grant request to further upgrade the Vanier Library's Africana Collection. The grant money is to be used to replace deteriorating paper copies of African newspapers with microfilm editions.

The collection of African materials at Concordia is one part of what aims to be a nearly comprehensive collection of resource materials for African studies in the libraries of Montreal universities. Concordia's function in this scheme is to collect materials relating to East Africa (Kenya, Uganda, Tanzania), Ethiopia, Liberia, Southern Africa (South Africa, Botswana, Lesotho, Swaziland, Portuguese Africa), and Central Africa (Malawi, Zambia, Rhodesia). For the most part, these African materials are unique in Canada, and their value to scholars at Concordia and elsewhere makes this grant a particularly welcome one.

A SUCCESSFUL DEBUT

The second edition of the Concordia University Library's Serials List on microfiche has just appeared, thus ending what we considered to be a period of initiation. Our user community seems content with the new format and with the considerably more current information which it contains. We in the Library are also content, because the new Serials List is not only an improvement over the old printed "S.H.L." but is, in addition, less costly to produce! The decreased cost will allow us to update our list more frequently, as well as to distribute copies of the list more widely than we were previously able.

We are interested in hearing your comments or questions on the new Serials List. There are questionnaires available in the Reference Area of each library, or you may address your comments directly to: Hilari Farrington, Library Orientation, Norris Library 429-5 (879-4523).

REMINDERS

TO FACULTY AND STUDENTS:

More and more quality programs, superior in instructional content and audiovisual design, are now available on videocassettes. They are being employed in diverse educational situations as the basis for group discussion and involvement, or for individual study purposes. A selection of some of our videocassettes appears in the "ACQUISITIONS" section of this newsletter. They can be viewed in the Non-Print Area of the Norris or Vanier Library, or borrowed for a 3 day period. Arrangements can also be made for classroom viewing. For further information phone 879-8182 at S.G.W., or 482-0320, ext.265 at Loyola.

TO ALL FACULTY ON THE S.G.W. CAMPUS:

There are few things more frustrating to students than not finding required reading materials in the Library. For that reason, the staff of the Government Publications Room of the Norris Library would like to remind you to let them know in advance if you plan to give an assignment requiring the use of Government Publications. If necessary, materials can then be placed on reserve at the Circulation Desk, or simply set aside in the Government Publications Area. Being able to anticipate demand for specific materials helps us to ensure that your students will spend more time reading those required publications than they will looking for them!

ATTENTION BUSINESS STUDENTS: ANNUAL REPORTS FOR THE FINANCIAL POST TOP 500 ARE ON RESERVE IN BOTH THE NORRIS AND VANIER LIBRARIES. GO TO THE CIRCULATION DESK.

ATTENTION ACCOUNTING STUDENTS: THE COMPREHENSIVE SETS OF CICA, CGA, AND RIA EXAMS ARE ON RESERVE IN THE NORRIS AND VANIER LIBRARIES. ASK AT THE CIRCULATION DESK.

TO THE PEOPLE WHO USE THE NORRIS NON-PRINT AREA: Please do not return your materials to the book drop on the main floor, nor to the 6th floor Circulation Desk. All Non-Print materials should be returned directly to the Non-Print Area (N422) of the Norris Library.

TO GEOLOGY STUDENTS AND FACULTY: The Science and Engineering Library would like to remind you that all of S.E.L.'s geology maps are housed in that library's Non-Print Room.

COMPUTERIZED INFORMATION SERVICE

If you are frustrated by the time it takes to search the indexes and abstracts, you should know that the Library's On-Line Computerized Information Service may be able to find you the information you need in a fraction of that time. Computer terminals, located in each Concordia library will give you access to databases which include Biological Abstracts, ERIC, Engineering Index, Social Sciences Citation Index, Management Contents, Art Bibliographies Modern, and PSYCINFO (see below). If you are interested in obtaining more information on this service, get in touch with your Subject Librarian, or phone the Reference Desk in any Concordia Library.

(Cont...)

PSYCHOLOGISTS, PLEASE NOTE! As of January 1, 1981, the database version of Psychological Abstracts has been given a new name: PSYCINFO. The new name reflects the fact that the database now includes about 20% more information than the printed work. The PSYCINFO database covers the world's literature in psychology, as well as related behavioural and social sciences, and is produced by the American Psychological Association. For details on file description, subject coverage, updates, the cost of a search, etc. phone Helena Gameiro, Psychology Librarian, 482-0320, local 411.

ALSO, effective immediately, MEDLINE (MEDLARS on-line) will be available on-line at Concordia Libraries. This database is produced by the U.S. National Library of Medicine (NLM) and constitutes one of the major sources for biomedical literature. The complete MEDLINE database, from 1966 to the present, represents over three million records, and indexes articles from approximately 3,000 journals published in over 70 countries. For more information, please contact the Subject Librarian for your area.

FACILITIES

PERIODICALS IN THE SCI-ENG LIBRARY: SOMETHING HAD TO GIVE

Library users are no longer in danger of being squeezed out of the Science and Engineering Library by hordes of periodicals. Because the stacks had reached full capacity, over the summer there was a major shift of the periodicals collection as follows:

Volumes 1975 onward - Science And Engineering Library 10th floor (Hall Bldg.)

Volumes 1964-1974 - Sci-Eng Library Periodicals Reading Room Hall Bldg. 4th floor.

Volumes pre-1964 - In storage. Request at Circulation Desk.

Because this change is not yet reflected in the new Serials List, please note the yellow signs which have been posted throughout the stacks as a reminder!
